

# 322, Health Care, and The Dollar Code

(From William Frederick's blog: [The End Times Forecaster](#))

What does health care have to do with a date encoded on the dollar bill? In the article [The Dollar Code](#) I explained how the date 2/22/2010 was encoded on the dollar bill and the Great Seal. I speculated what would happen on that date and explained how the actual date may be 3/22/2010. Here is what I wrote.

Note: 2/22/2010 has come and gone and nothing major happened, so what now? First let me tell you about some interesting things that did happen on 2/22/2010; at 11:00 EST gold was at \$1111/oz. At 1:11 PM EST the Dow was down 11.11 points, which was a drop of .11%. I believe that those occurrences were beyond chance and may have been a sign or signal of future events regarding the United States. Also on 2/22/2010 President Obama announced his new health care initiative which if passed will greatly increase government expenditures and taxes which could lead to the financial collapse of the United States...

What does all this mean? I am not sure but from my research I believe that we are very close to seeing

monumental prophetic developments, one of which I believe will include large scale financial upheavals in the United States. I also believe that 2/22/2010 is a key date in this regards and that a major event(s) will be staged in relation to that date with 3/22/2010 being the most prominent date to watch for.

As we all know on 2/22/2010 Obama announced his health care bill. On 3/22/2010 (Universal time, UTC) the health care bill was passed and on 3/23/2010 Obama signed it. So one month past 2/22/2010 the bill passed and a month and a day after 2/22 the bill was signed.

So it seems that the encoded date on the dollar bill points to the health care bill. Will the health care bill lead to the destruction of the United States? It could, but before we discuss that let's consider what has been said about it. Pastor Lindsey Williams has been in contact with an Illuminati insider who said this about the health care bill; "The health care bill is not a health care bill...The health care bill is total government takeover, it includes gun confiscation, euthanasia, and biometric chipping."

If that is true then this bill could be a death blow to our nation and our freedoms. After the bill passed the victors in the house broke out into a loud chant of "Yes we can!" In case you do not know; "Yes we can" played backwards says "thank you satan." Look what [Nancy Pelosi](#) said about the bill.

Winding up the debate, Speaker Nancy Pelosi said: "After a year of debate and hearing the calls of millions of Americans, we have come to this historic moment. Today we have the opportunity to complete the great unfinished business of our society and pass health insurance reform for all Americans that is a right and not a privilege."

When I read her statement that included the phrase; "to complete the great unfinished business," I immediately thought of the unfinished pyramid on the back of the dollar bill and its connection to the encoded dates of 2/22/2010 and 3/22/2010. I also remembered the purpose for which America was created—to usher in the new world order.

The Great Seal is the signature of this exalted body—unseen and for the most part unknown—and the unfinished pyramid upon its reverse side is a trestle board setting forth symbolically the task to the accomplishment of which the United States Government was dedicated from the day of its inception.” – Manly P. Hall, Secret Teachings of All Ages

In his “Secret Destiny of America”, M.P. Hall describes America’s mystic role in History, as seen by occult orders. He states that America has been given the divine role of bringing forth a new political, philosophical, economical and religious era, where the “Illuminated” stood at the helm of the world’s destiny. ([Source](#))

Was the health care bill the last piece of legislation needed for the powers to be to eventually destroy the sovereignty of the United States and establish their new world order—complete the unfinished business? Or could it be even more sinister than that?

On Sunday March 21st as I watched C-Span I suddenly got a tingle up my spine. Were they purposely putting this off until the clock hits March 22nd Universal Standard Time? Is this thing being orchestrated so that it falls on 3-22, March 22nd, the Holy Day of some crazy secret society?(Skull and Bones) And a secret society that has built a monument (Georgia Guidestones), christened on 3-22 that announces their plans?

Then that would mean the 'Health Care Plan' is something far more sinister.

Happy March 22nd America. ([Source Link](#))

To get the bill to pass Obama had to craft legislation to nullify the federal funding of abortion. Listen to what [Planned Parenthood](#) had to say about this.

Planned Parenthood called the pro-abortion health care bill the House approved late Sunday night a victory and applauded the financial windfall it expected to reap as a

result. The abortion business also dismissed the executive order President Barack Obama promised Congressman Bart Stupak as harmless.

'What the president's executive order did not do is include the complete and total ban ... that Congressman Bart Stupak (D-MI) had insisted upon," Richards said. "So while we regret that this proposed Executive Order has given the imprimatur of the president to Senator Nelson's language, it is critically important to note that it does not include the Stupak abortion ban."

If that is true then our taxes are going to fund abortions! Yet there is more;

New Health care laws will indeed set up death panels. This law crowns the Independent Medicare Advisory Board (IMAB) as an untouchable regulatory authority wielding dictatorial powers. This law is the Worst Case Scenario for Americans who fall into one of the "Devalued" categories, Elderly, Terminally Ill, Vegetative State, or Insane, or Politically Incorrect. President Obama's Health Care Law gives rebirth to the Nazi Biomedical Vision - the bloody Nazi World is back!

Remember, this is part of the Illuminati plan for America, designed to more tightly control citizens from cradle to grave. It is a very important component of the coming dictatorship.

Because the ultimate goal of ObamaCare is government control over all its citizens, not to compassionately deliver affordable health care to all. As we transition to a dictatorship, the government must control all its citizens at every point in their life and death. Government Control is the major objective of ObamaCare. [Cutting Edge Newsletter 3/24/2010](#)

Rep. Dingell said something very important about the bill which can be viewed at the posting of this article at [The End Times Forecaster](#).

He said the bill was about controlling the People. Yea that is right, the bill is about control! [A constitutional lawyer who read the entire text of the bill fills in the details.](#)

What I found was far worse than what I had heard or expected...the law does provide for rationing of health care, particularly where senior citizens and other classes of citizens are involved, free health care for illegal immigrants, free abortion services, and probably forced participation in abortions by members of the medical profession.

The Bill will also eventually force private insurance companies out of business, and put everyone into a government run system. All decisions about personal health care will ultimately be made by federal bureaucrats, and most of them will not be health care professionals. Hospital admissions, payments to physicians, and allocations of necessary medical devices will be strictly controlled by the government.

However, as scary as all of that is, it just scratches the surface. In fact, I have concluded that this legislation really has no intention of providing affordable health care choices. Instead it is a convenient cover for the most massive transfer of power to the Executive Branch of government that has ever occurred, or even been contemplated. If this law or a similar one is adopted, major portions of the Constitution of the United States will effectively have been destroyed.

This constitutional lawyer believes that this bill has destroyed the constitution! In regards to 2/22/2010 and 3/22; personally I was expecting something more on the lines of a financial collapse. I still think that is coming and so do, according to a recent pole, about 79% of Americans. But it looks as if the dates pointed to the health care bill and I think that we will soon see the ramifications of this legislation

and its ripple effects. Just the cost of this bill alone could send this country over the cliff of financial ruin. [Michael Pollaro estimates the true cost of the bill](#) to be 2.7 trillion! The health care bill may be the proverbial straw to break America's back. Just as the Dollar code foretold this may truly be the beginning of the end for America.

Thanks to [New Wineskins](#) I just found a symbolic link to 222 (the prominent encoded number on the dollar bill), the signing of the healthcare bill, and the fate of America. Obama used 22 pens to sign his name on the bill. The pens were contained in 2 boxes—222. When he was finished signing he said "We are done!"

Ever try to sign your name with 22 pens? Not so easy. "I've got to use every pen so it's going to take a really long time," said Barack Obama at Tuesday's historic signing of the health care bill. "I didn't practice."

In a longtime tradition, the president put his signature to the bill using almost two dozen commemorative pens, which were handed out to key congressional leaders and others who helped pass the legislation. It took the lefty more than 90 seconds to pick up each of the 22 pens and make a small portion of each letter in his name -- and yeah, the signature probably looks a little weird. "**We are done!**" he announced with the final stroke.

The White House didn't release details about the custom-made pens -- complete with the presidential seal and signature -- but aides to one recipient confirmed (on super-secret background) that they were black and manufactured by Cross, an American company. Obama used similar rolling-ball pens on his first day in office.  
[Washington Post](#)

Thanks to [Cindy by the Sea](#); interestingly enough the day Obama signed the bill is the [77th anniversary to the day of the enabling act](#) which gave Hitler dictatorial powers.

It was the Enabling Act of March 23, 1933, which in a legal way conferred dictatorial powers on Adolf Hitler.

Only 94 Social Democratic votes were cast against it. The date for its abrogation (see Article 5) was never kept. Indeed, the Enabling Act is the last measure which the Reichstag passed under the republican and democratic Constitution of the Republic. It spelled its end and the beginning of National Socialist dictatorship.

Is this the beginning of the end for America? The dollar bill and the Great Seal were encoded with the date 2/22/2010—the day Obama announced his health care bill. On 3/22/2010—another date linked to the dollar bill and the skull and bones death society—the bill passed. On 3/23/2010 the bill was signed with the symbolic link to 222 and hitler's dictatorship. On analyzing the bill we find that it destroys the constitution, is designed to control the people, and will cost trillions. So I believe the question; "What does health care have to do with a date encoded on the dollar bill?" was answered by the man himself "We are done!" I believe that it is the beginning of the end for America and she will be "done" as a sovereign nation by the second encoded date, 12/21/2012.

The Dollar Code—222—322—health care—"We are done!"

Note: I think we could also see other key events happen on days all keying from 2/22/2010. We have already seen something 1 month past the day and 1 month and 1 day past the day—111. We could see things 33, 44, 55, 111, 222 days past, 1 year 1 month 1 day, etc. Time will tell. The more important consideration is; are you ready?
